

Stakeholder Meeting & Workshop

"Development of Organic Electronics Industry in Greece"

Monday, 19 November 2012, Electra Palace Hotel, Thessaloniki, Greece

09:00	Registration
09:30	Welcome & Opening Remarks
	Outlook for the Greek Organic Electronics R&D Sector (Chair: Dr. A. Laskarakis)
10:00	"ROleMak Project & RTD activities in Organic Electronics in K. Makedonia " Prof. S. Logothetidis, Director of LTFN, AUTH, Greece
10:30	"RTD Activities at NCSR Demokritos in the field of Organic Electronics " Dr. P. Argitis, Director of Research, Institute of Microelectronics, NCSR "Demokritos", Greece
10:45	"RTD & Spin-out Activities in Organic Electronics in Patras Area" Prof. J. Kallitsis, Director of AP/HN-RL, University of Patras, Greece
11:00	"RTD Activities in OEs & Bioinspired materials in Photovoltaics in Crete Area " Prof. A. Coutsolelos, Chemistry Dept, University of Crete, Greece
11:15	Coffee Break
	Outlook for the European OEs Sector (Chair: Dr. K. Porfyarakis)
11:45	"Organic Electronics in France: RTD & Entrepreneurial Activities " Prof. G. Hadziioannou, Director of LCPO, CNRS, France
12:05	"RTD & Commercialization activities in Organic Electronics in Spain " Dr. N. Kehagias, Head of Nanofabrication division, CIN, Barcelona, Spain
	Manufacturing & Applications of OEs (Chair: Prof. G. Hadziioannou)
12:25	"Organic Bioelectronics: Status & Perspectives for Commercialization " Prof. G. Malliaras, Director of Department of Bioelectronics EMSE, France
12:45	"R2R Manufacturing Processes for Organic Photovoltaics" Dr. T. Kolbusch, Vice President, Coatema Coating Machinery, Germany
13:05	"Organic Electronics in Textile Industry " Mr. A. Kalantzis, Ass. General Manager of MIRTEC, Greece
13:25	Lunch Break
	Entrepreneurial & Clustering in OEs (Chair: Dr. N.Kehagias)
15:00	"How can we make business with OEs Worldwide" Dr. P. Giannoules, INTECS, Germany
15:30	"Clustering & Commercializing OEs in Europe: The FP7 COLAE Project " Dr. M. Chachamidou, LTFN, AUTH, Greece
15:50	"Creating the OE Industry in Greece: The HOPE-I Cluster" Prof. S. Logothetidis, Director of LTFN, AUTH, Greece
16:10	Coffee Break
	Commercializing OEs in Greece (Chair: Dr. A. Laskarakis)
16:30	"Commercializing Organic Electronics, the case of OE-Technologies" Mr. C. Koidis, General Manager, OE-Technologies, Greece
16:45	"Commercializing Nanoimprint Lithography for OEs, the case of Nanotypos" Dr. N. Kehagias, CEO, Nanotypos, Greece
17:00	"Commercializing Fullerene Materials for OEs, the case of DEFINE" Dr. K.Porfyarakis, CEO, DEFINE, Greece
	Panel Discussion: Is OE Industry a solution for the Greek Crisis? (Chair: Prof. S. Logothetidis)
17:15	- Dr. P. Giannoules (VP, INTECS, Germany), - Dr. T. Kolbusch, (VP, Coatema Coating Machinery, Germany), - Dr. N. Kehagias (CEO, Nanotypos, Greece), - Mr. A. Kalantzis (Ass. GM, MIRTEC, Greece), - Mr. V. Thomaidis (CEO, COMPUCON, Greece)
18:30	End of Workshop

Organic Electronics contribute to Energy, Lighting, Displays, Sensors, Electronics, Healthcare, e-Textile, Packaging, Signage, etc

The Stakeholder Meeting is realized in the framework of the FP7 European REGPOT Project **ROleMak** "Reinforce Organic Electronics Research Potential in K. Makedonia" that is coordinated by the Physics Department of AUTH.
